Software Developer

PROFESSIONAL EXPERIENCE

- Published App on Google Play Store (July 2023)
 - Built android app ‘Save it’ that allows users to label and save content .
 - It has Modern UI
 - Memory efficient with cache handling and pagination
 - Simple and clear UX

ANDROID

KOTLIN

SQL

- Freelancing (May 2019 to December 2022)
 - Built an android app for a Youtuber. App creates, handles, and automatically starts meetings on schedule time.
 - Built and Typing Speed Analyzer for instagrammer
 - Built staff managing app
 - and more

ANDROID

KOTLIN

PYTHON

- Freelancing (May 2018 to May 2019)
 - Built IOT apps
 - Built Sensors controlled wheelchair
 - Distance calculator using ultrasonic sensors
 - and more

ANDROID

KOTLIN

C++

SENSORS

MAJOR PROJECTS

Ai Model and Wumpus World Game (June December 2023)

- Dynamic Wumpus World game.
- Ai Model that learns and plays the game

Ai / ML

PYTHON

PyGame

WiFi Ecosystem (July 2022 to December 2022)

This ecosystem among the connected devises will allow swift file Transfer, Over The Air (OTA) controls, Notifications Sync etc.

ANDROID

KOTLIN

WEB SOCKETS

.NET FRAMEWORK

C#

Staff Management App (March 2022 to May 2022)

This is an windows application built on Microsoft's latest Graphical User Interface (GUI) i.e Win Ui 3, allows the user to see, manage, Administrate the staff for optimal performance and reliable task Controls, Notifications Sync etc.

.NET FRAMEWORK

C#

Notifications Manager (August 2021 to November 2021)

- This is an Android application which allows a user to
- Save all the upcoming notifications.
- Create a custom event which is triggered when certain actions are Detected.
- Broadcast notifications over headphones while driving or ridding.

ANDROID

DATA STRUCTURES

KOTLIN

Notifications Manager 2.0 (January 2022 to April 2022)

- Its a better version of Notifications Manager with
- a. Better User Interface
 - b. Better fail safe methods
 - c. Robust data storing algorithms
 - d. User authentication for privacy
 - e. Fast by Implementing paging algorithms

ANDROID

DATA STRUCTURES

KOTLIN

ACHIVEMENTS

- ★ Hackathon Winner MJCET 2023
- ★ Hackathon Winner NSAKCET 2023
- ★ Android Developer Badge, LinkedIn
- ★ Python Programmer Badge, LinkedIn

APPLICATIONS & TOOLS KNOWN

EDUCATION

- Diploma In Computer Science from Telangana State Board Of Technical Education & Training in 2021.
- Bachelor of Engineering from Osmania University in Computer Science Engineering, Currently pursuing last year (4th year).
